SITUATION REPORT (SITREP) # 163

28TH – 31ST MAY 2018

The WaterFund's Situation Report No. 163 (SITREP #163) covered the period **28th to 31st May 2018.** Among the highlights was that WaterFund Management hosted the Freetown WASH Consortium (FWC) and Water and Sanitation for the Urban Poor Advisory (WSUP) on a benchmarking visit by the two institutions. The Freetown WASH Consortium was conducting a study on designs of improved public toilets management systems that would be incorporated in Freetown, Sierra Leone.

Based on international best practices, WSUP facilitated knowledge exchange between FWC and WaterFund. Mr. Ismail Shaiye, CEO WaterFund, made a presentation on the Upscaling Basic Sanitation for the Urban Poor (UBSUP) programme. The presentation gave the FWC delegation an insight into WaterFund's implementation guidelines for Water Service Providers, on contracting and managing private operators of public toilets.

Highlight: WaterFund facilitated a fact-finding visit for the delegation to WaterFund-funded Mavoko public toilets in Machakos County.
