SITUATION REPORT (SITREP) # 384
11TH – 14TH OCTOBER 2022

WATERFUND INSPECTS PROJECTS UNDER THE EDE-CPIRA PROGRAMME

Water Sector Trust Fund (WaterFund) with financial support from the European Union has financed the implementation of the Ending Drought Emergencies- Climate Proofed Infrastructure (EDE-CPIRA) programme. This programme which targets Counties in drought-prone areas aims to address the deficit of climate-proofed water supply and sanitation infrastructure.

In view of the above, WaterFund embarked on a monitoring mission to Samburu, Kajiado, West Pokot and Baringo Counties whose projects are at different stages of implementation. The areas of focus for the mission were: Medium Sized Climate Proofed Water projects, Public Sanitation Facilities and Water Resource Users' Associations (WRUAs) projects.

During the Inspection visit, WaterFund paid a courtesy visit to H.E. Hon. Robert Komolle, Deputy Governor, West Pokot County to discuss pending works and follow up on progress made on funded projects. In addition, WaterFund was keen to inspect the quality of works executed in the ongoing projects, adherence of design, standards and specification approved, and challenges faced during implementation.

H.E. Hon. Robert Komolle, Deputy Governor, West Pokot County, giving his remarks during the courtesy call visit by WaterFund
